

Managed Google

You focus on selling cars while Reputation optimizes your Google presence. Let us turn Google into an aggressive tool to generate leads.

Challenge

Google's influence makes maintaining a quality Google Business Profile (GBP) paramount. However, many dealerships either don't have the time or resources to do the job, or only use half measures which leaves money on the table.

Solution

Maximize your return from Google with expert partners! Reputation's Managed Google program does all the work to unlock traffic and leads you didn't know you were missing; all while you focus on selling cars.

Results

In a major American automotive OEM's pilot program, dealers using Managed Google **saw a 21% increase in Google impressions.** Additionally, over the next 12 months enrolled dealers saw the below results.

	Enrolled Dealers
Clicks to views	+27%
Clicks to directions	+54%
Clicks to calls	+36%
Clicks to websites	+6%

Our clients' fully-optimized Google presence sees:

10X More traffic than their corporate website

Did you know?

- **70% of people are more likely to visit** locations with complete profiles
- **50% of people are more likely to make a purchase** after seeing a completed profile

Benefits

- ✓ **Increase efficiency** and get more time, and resources to focus on selling cars
- ✓ **Elevate visibility and engagement on Google** and get more clicks and calls
- ✓ **Improve customer experience** with easier access to customer feedback
